

Greetings District Leader,

As Senior Retention Manager here at EOS, I would like to take this prestigious opportunity to welcome you as a new partner. We are excited and fortunate to have you with us. We are thrilled about our new partnership and the successes that are to come. This work cannot be achieved without committed partners like you and that commitment will create a significant impact into the lives of your students.

My goal is to ensure that we provide you with all the necessary support you need to succeed in your partnership. We are dedicated to the success and growth of our partnership and pledge our attentiveness and professionalism. As you work closely with our Partnership Team, you can depend on our approach to and expertise in the equity journey.

I am also happy to inform you that I will be one of your primary points of contact at EOS, and I encourage you to contact me at any time with your questions, comments, and feedback. In the coming weeks you will be receiving onboarding materials and other important info regarding next steps in preparing for the launch of your partnership, the Leadership Orientation.

The next action item in your onboarding experience is the Onboarding Call. In this call, you will meet with EOS to discuss and strategize your equity goals for the upcoming year. For this call we recommend that District Lead(s), Principals and any other high-level contributors who will be facilitating the work in your district attend. In preparation of this call, we ask that you and your team fill out your Equity Profile to assess your equity needs and goals as we will be working through your profile in the Onboarding Call. Please reply with your completed [Equity Profile](#) as well as suitable dates for the next 3 weeks that works best for you and your team to have a call with EOS. We also recommend that you use the [Access Opportunity Onboarding and Resource Page](#) as a resource for onboarding messaging materials, contact management and other EOS updates.

Sincerely,

Rod Walton
