

Equal Opportunity Schools Selects Andrew Cooper as Vice President of Technology

We are proud to welcome our new Vice President of Technology, Andrew Cooper. Andrew is a valuable addition to our team. His experience in technology and leadership extends more than 20 years. He has worked as a Survey Engineer, Senior Software Engineer, and Technical Division Vice President.

Andrew has applied his tech skills and data insights to help shape and scale several large companies, including *J.D. Power* and *LRW*.

"We could not be more excited," Equal Opportunity Schools President Dr. Sasha Rabkin remarks. "Throughout our interview process, Andrew demonstrated a deep and abiding curiosity about our unique challenges and opportunities. His answers and questions highlighted a sincere and thoughtful approach to the ways in which technology can enable us to fulfill our mission. Andrew brings a wealth of experience and a dynamic human-centered approach to his work as a technology leader."

The hiring of Andrew comes at a crucial moment as we strive to improve our data management system and increase the impact of our technology. Through his leadership, the technology department will be able to meet the needs of students, teachers, and school leaders across the country as they continue to evolve at a fast rate in the wake of the global pandemic.
