

# Unlock student potential, improve student outcomes

83% Of students want to obtain a college degree,<sup>1</sup> yet 60% feel they don't belong in AP, IB, AICE, or Dual Credit courses.<sup>2</sup> Access barriers and enrollment standards focused solely on test scores and GPA unintentionally limit enrollment in advanced courses for thousands of capable students every year.

## Helping educators expand college and career readiness for more students

Equal Opportunity Schools (EOS) is a national nonprofit with over a decade of success helping districts and schools improve postsecondary outcomes for more students by focusing on four key priorities:

- Boost insight into student and staff needs
- Dissolve barriers to improve student belonging, attendance, and engagement
- Increase participation in AP, IB, AICE, and Dual Credit courses
- Develop and retain staff

## Our Impact

### ACCELERATION:

**80,000**  
new students in  
advanced courses

**30%**  
increase in students  
passing AP courses\*

**54%** of EOS-identified students who enroll and pass an AP course wouldn't have been identified by test scores alone.<sup>3</sup>

### REACH:

**900+**  
schools

**35+**  
states

**2M**  
students  
surveyed

**125K**  
school staff surveyed

## Accelerate progress with tailored solutions

No two districts are the same, which is why EOS works side-by-side with school leaders to provide a custom, holistic partnership covering the data, tools, and expertise that accelerate goal attainment.

### STUDENT & STAFF INSIGHTS

Go beyond exam data to gather student and staff insights that reveal access barriers, true perspectives, and unseen potential.

### PROPRIETARY TOOLS

The EOS Portal combines custom insights with school data to easily identify students ready for advanced coursework and their preferred trusted adults for outreach.

### PARTNERSHIP

Dedicated EOS partnership directors work with districts to set goals, verify insights, tailor action plans, and train staff on outreach to ensure success.

\* Minimum of one AP course after one year

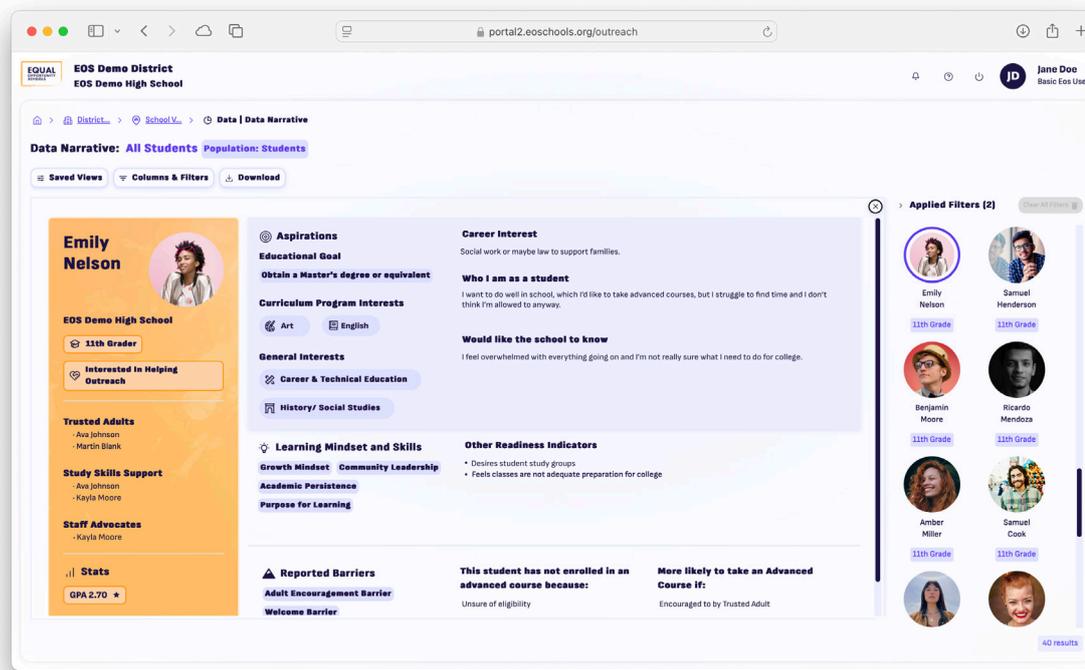

“Our partnership with EOS has proven essential... we are creating conditions of belonging for our students and expanding opportunities for them to participate in rigorous learning environments with an expectation of excellence for all.”

- LUCRETIA BROWN, PHD, CHIEF OFFICER, PWCS, VA. EOS PARTNER SINCE 2022

## Example program resources that drive positive outcomes

**Student Insight Cards** are a favorite among EOS-partnered districts that reveal student aspirations, perceived barriers, and unseen potential.

**Trusted Adults** are named by students with whom they have rapport and want to discuss their future. EOS trains Trusted Adults on outreach for greater impact and tracking progress to goals.

## Explore EOS for your schools

Connect with your local EOS Team to learn more about resources and partnership for your district.
